

THE ULTIMATE IMAGE

Well it's been a while since I arrived here
And the world has changed in many ways
With each and every day

They say we're moving forward
I say we're on a hell of a ride
That dips and darts and flashes past you
In the relative blink of an eye

But if one is me and you
And if we're all a part of one big family
Living through experiences greater than just our vision
I'd ask just how we're gonna leave
A lasting impression that's true
Now what am I gonna do?
What am I gonna do?

I leave my ripple in the ocean
And I leave my blessings at the altar
And I see my reflection in the ultimate image

Now together we can do wonders
And naturally I'd like us to be the best
We can be, always evolving to a higher seated nest

And it's a home for every one of us
And commands respect because we're part of it
We are moving through life
While choosing to find the immortal light
Through which we will be dispossessed

But if one is me and you...

I leave my ripple in the ocean
And I leave my blessings at the altar
And I see my reflection in the ultimate image
